High Tech Packing

In comparison to plasterboard dunnages
Sauerland Bearers offer:

1. Weight Reduction

Sauerland Bearers allow you to save 50–60% of weight, i. e. 200–300 kg/truck load.

2. Ready-To-Use Product

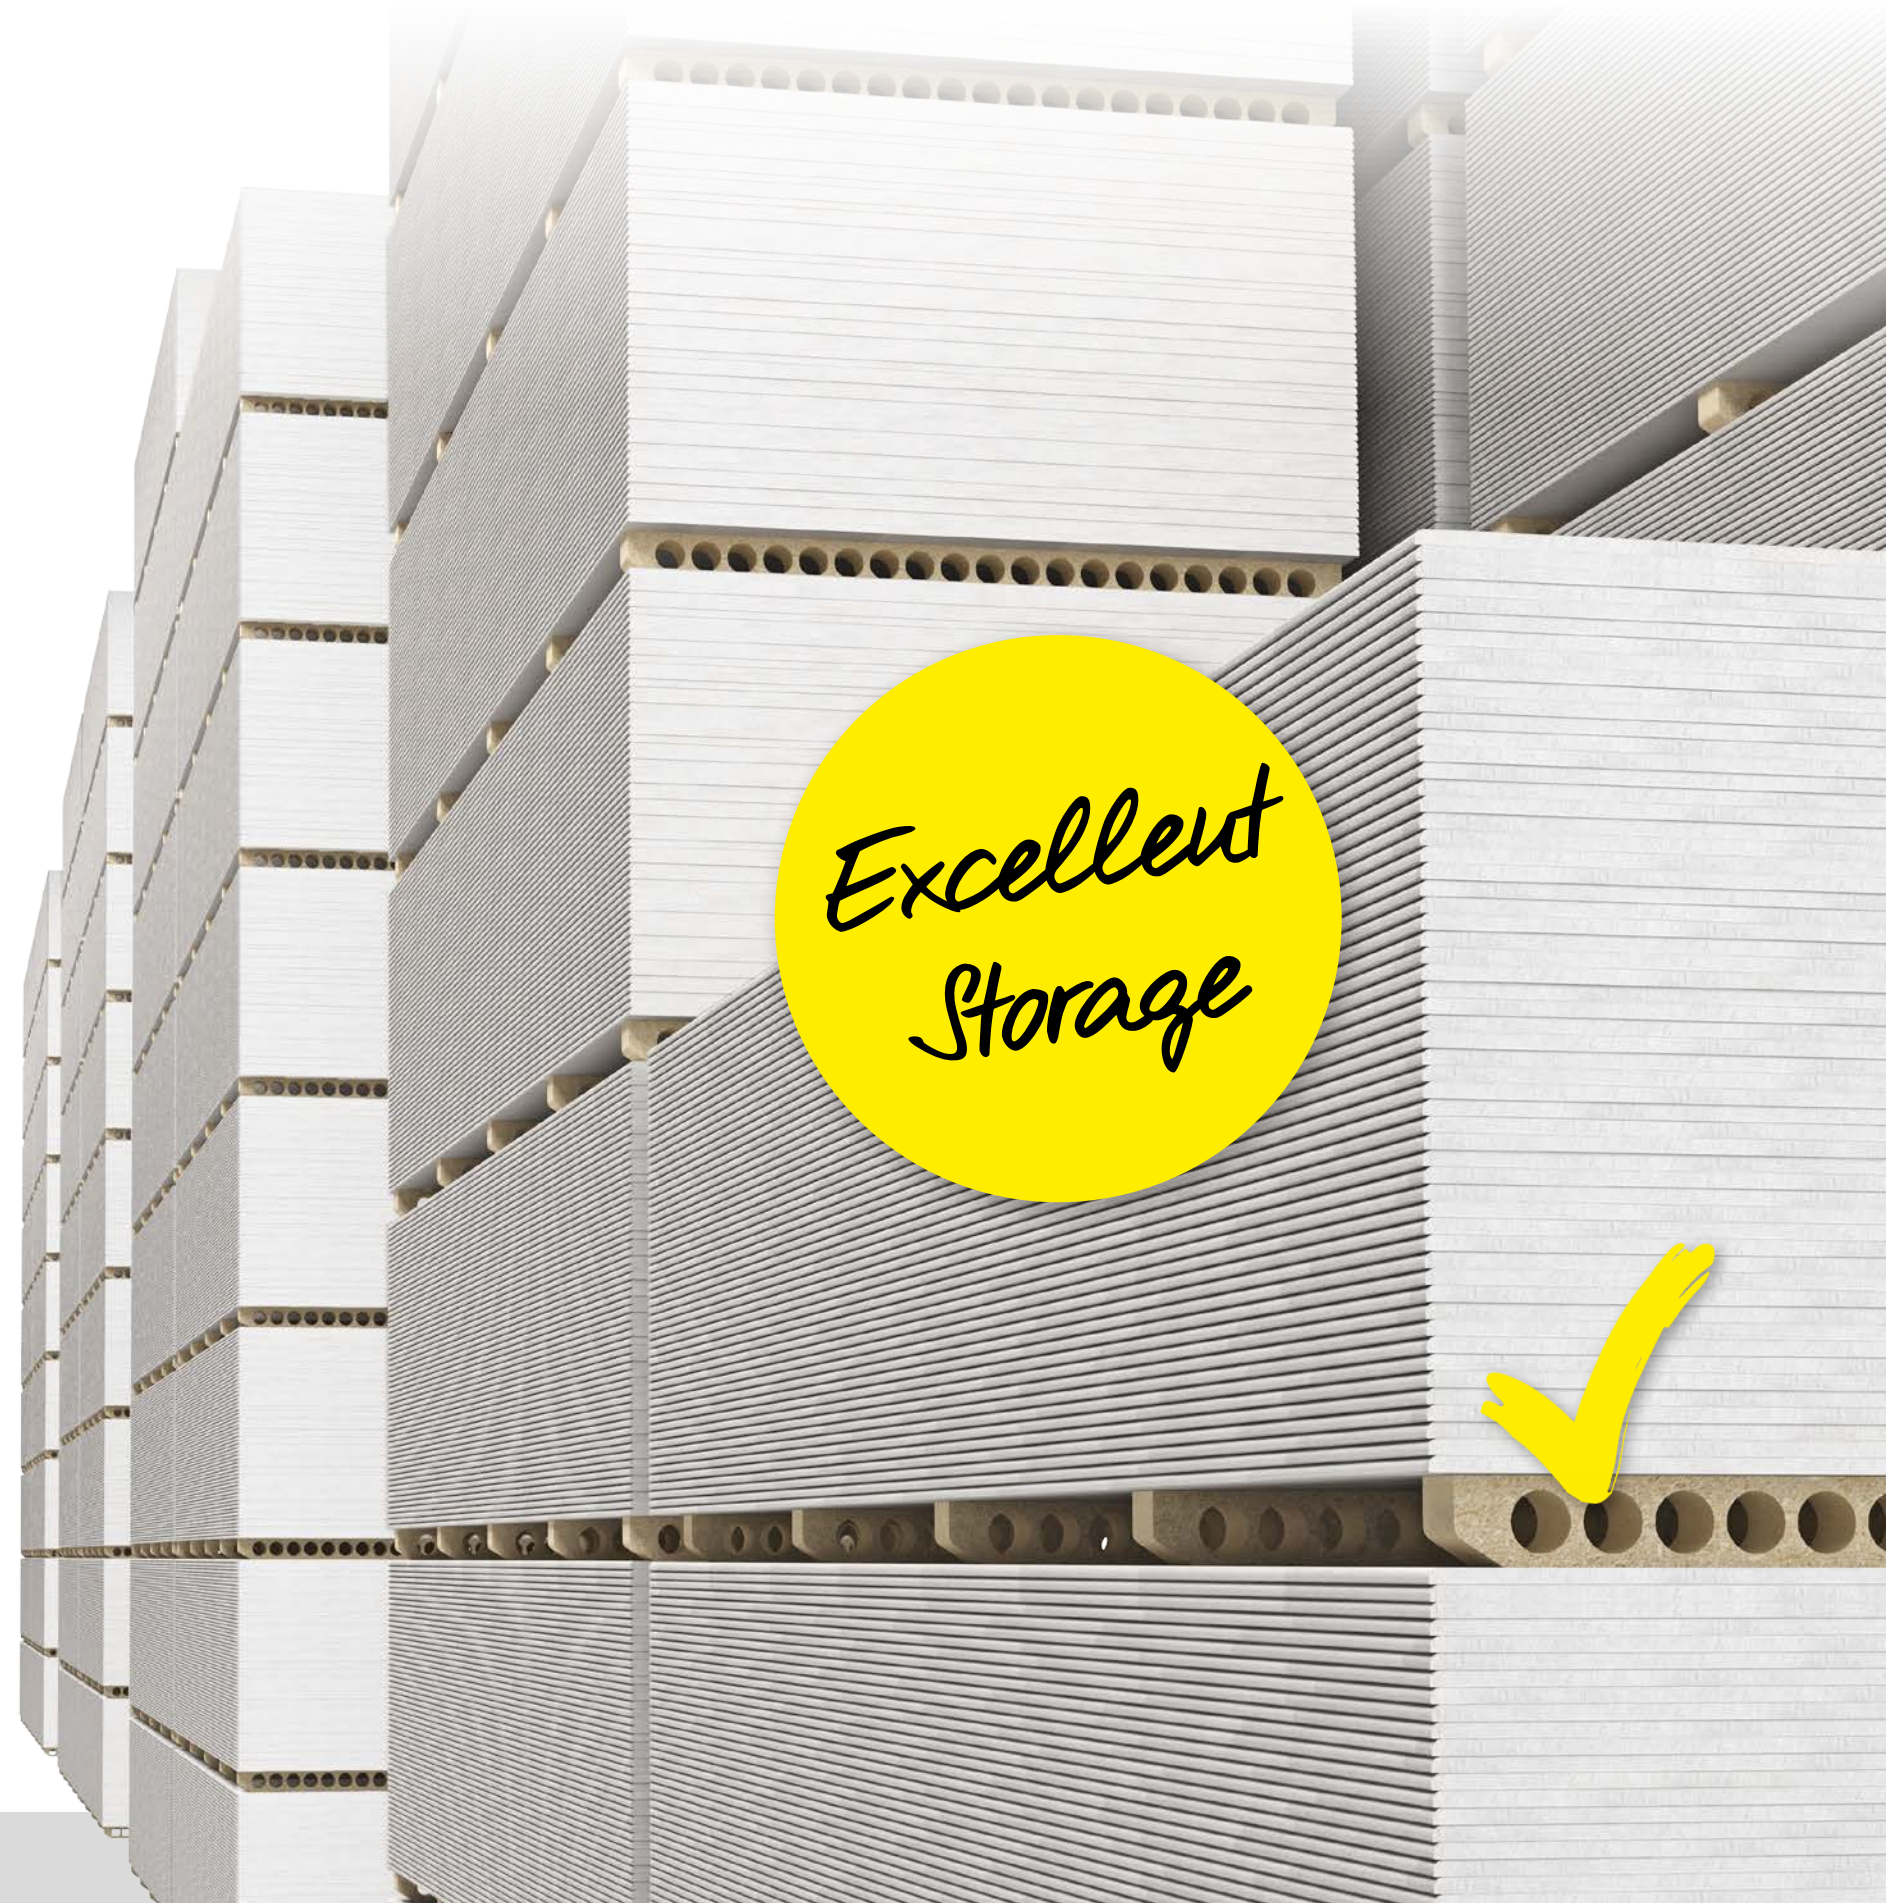

Sauerland Bearers avoid the time consuming own production of plasterboard dunnages.

3. Easy Waste Disposal

Sauerland Bearers can be easily disposed of in an environmentally friendly way.

4. High Tech Image

Sauerland Bearers give your high quality product an additional value and a technical aspect. You avoid to present 2nd quality material on the market.

Engineered Wood

Using **Sauerland Bearers** instead of ordinary solid wood, such as spruce, has the following advantages:

1. Low Moisture

Sauerland Bearers feature an optimum dryness, showing a relative humidity of under 10%.

2. Weight Reduction

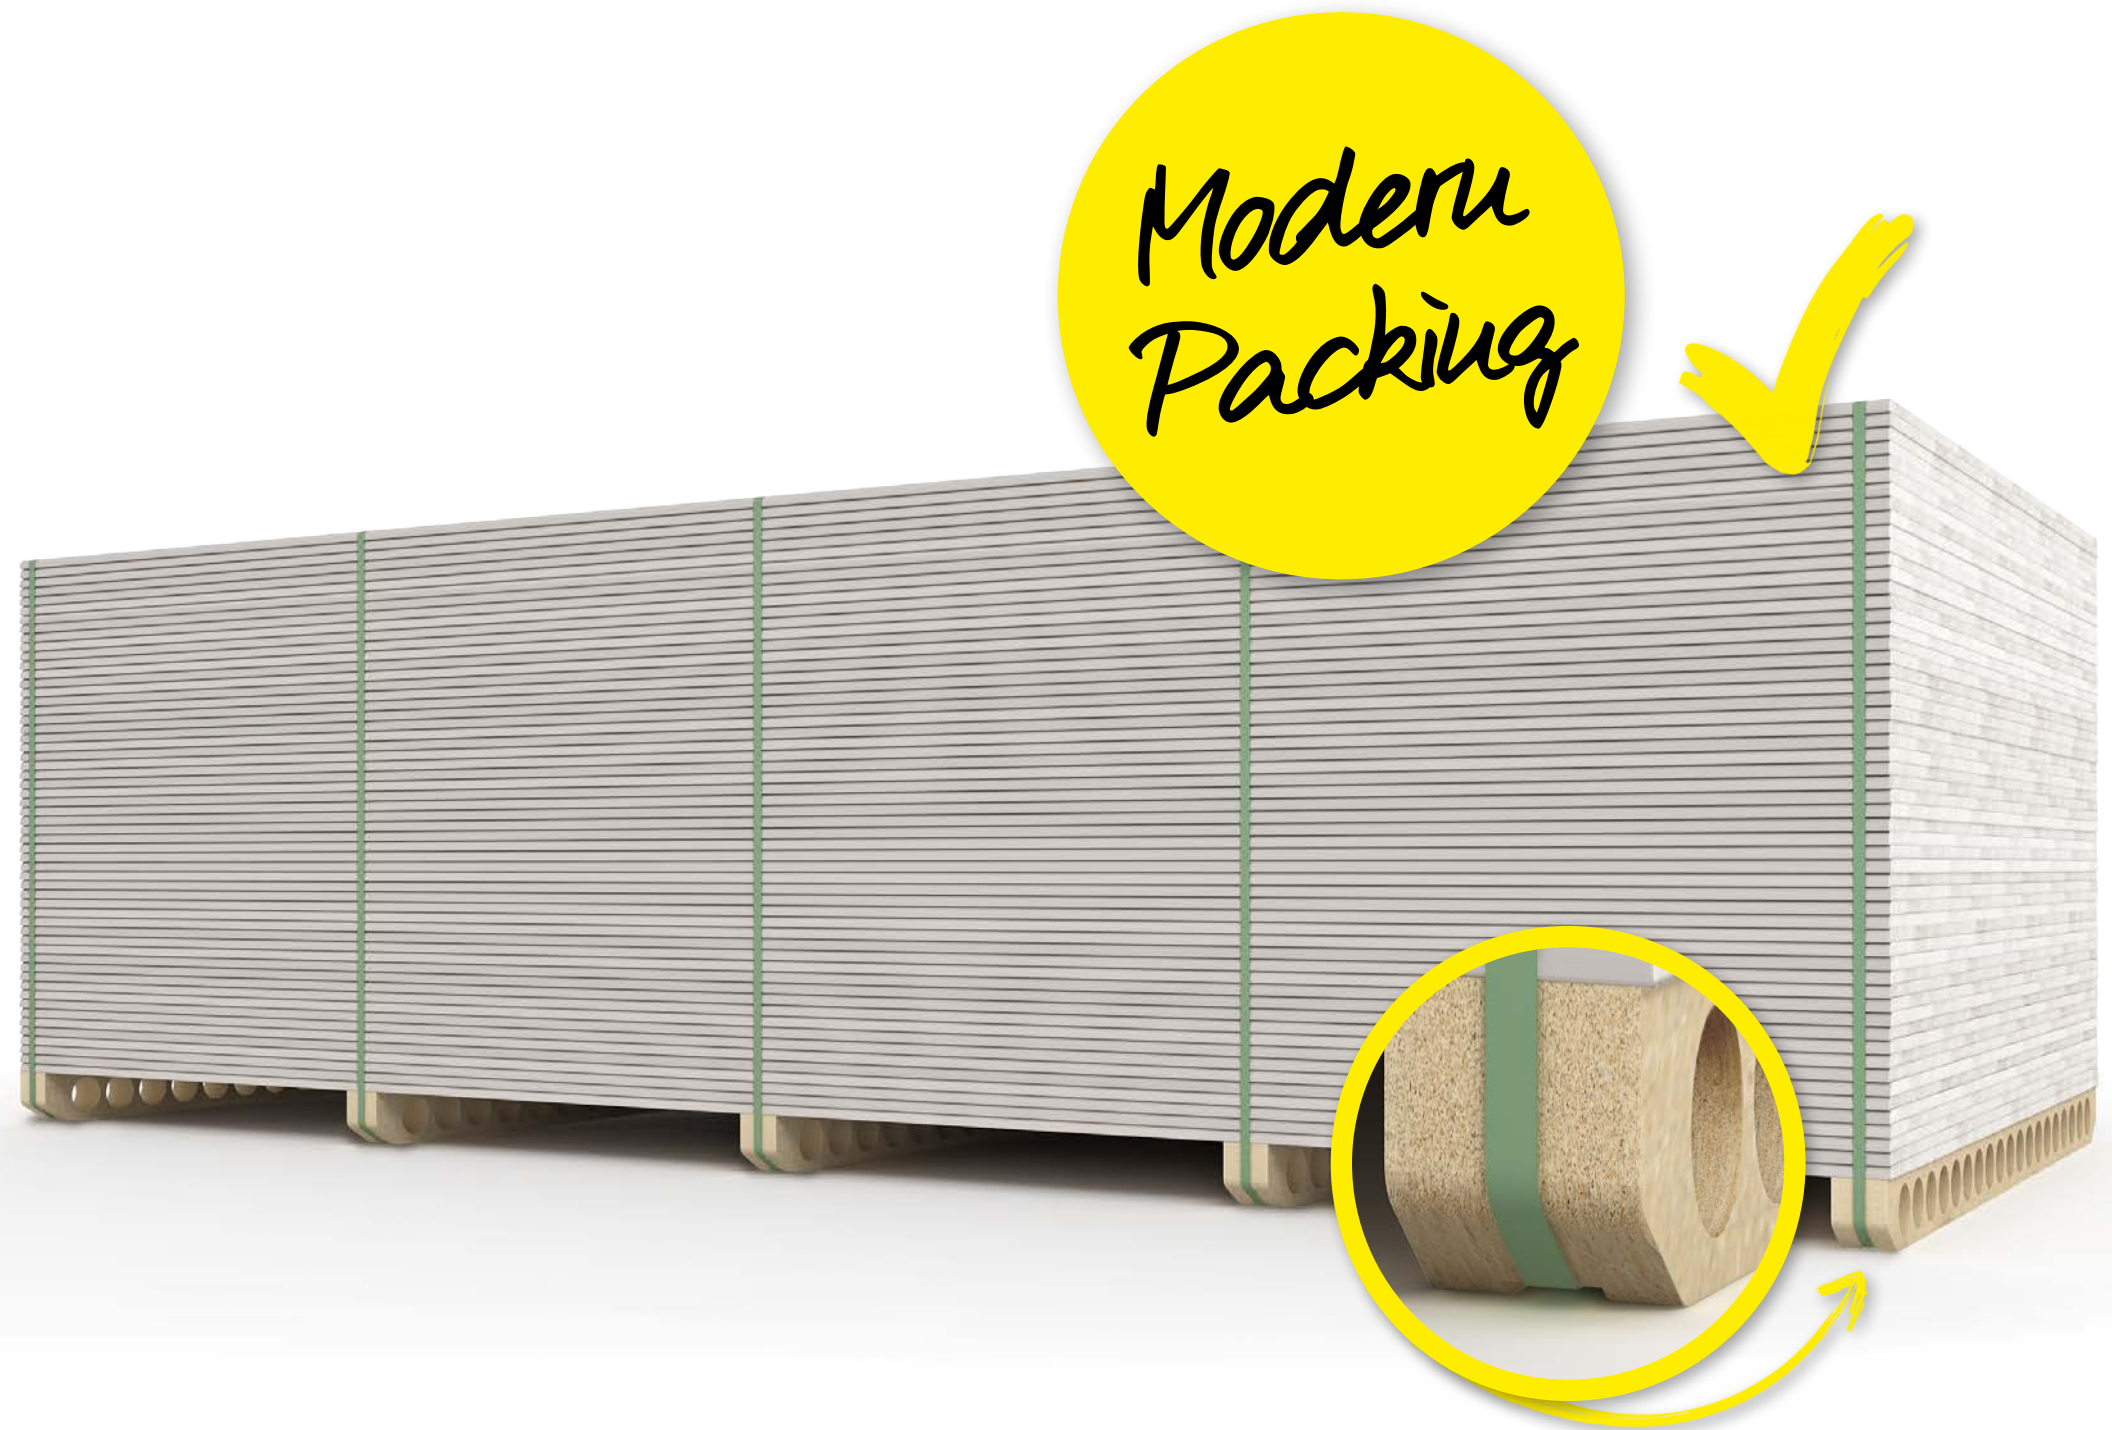

Sauerland Bearers are about 40% lighter than spruce bearers.

3. IPPC Compliance

Sauerland Bearers are made from manufactured wood and thereby comply with the IPPC ISPM 15 regulations.

4. Dimension Accuracy

Sauerland Bearers are dimensionally stable and allow a trouble-free feeding into packing machines.

Foil Protection

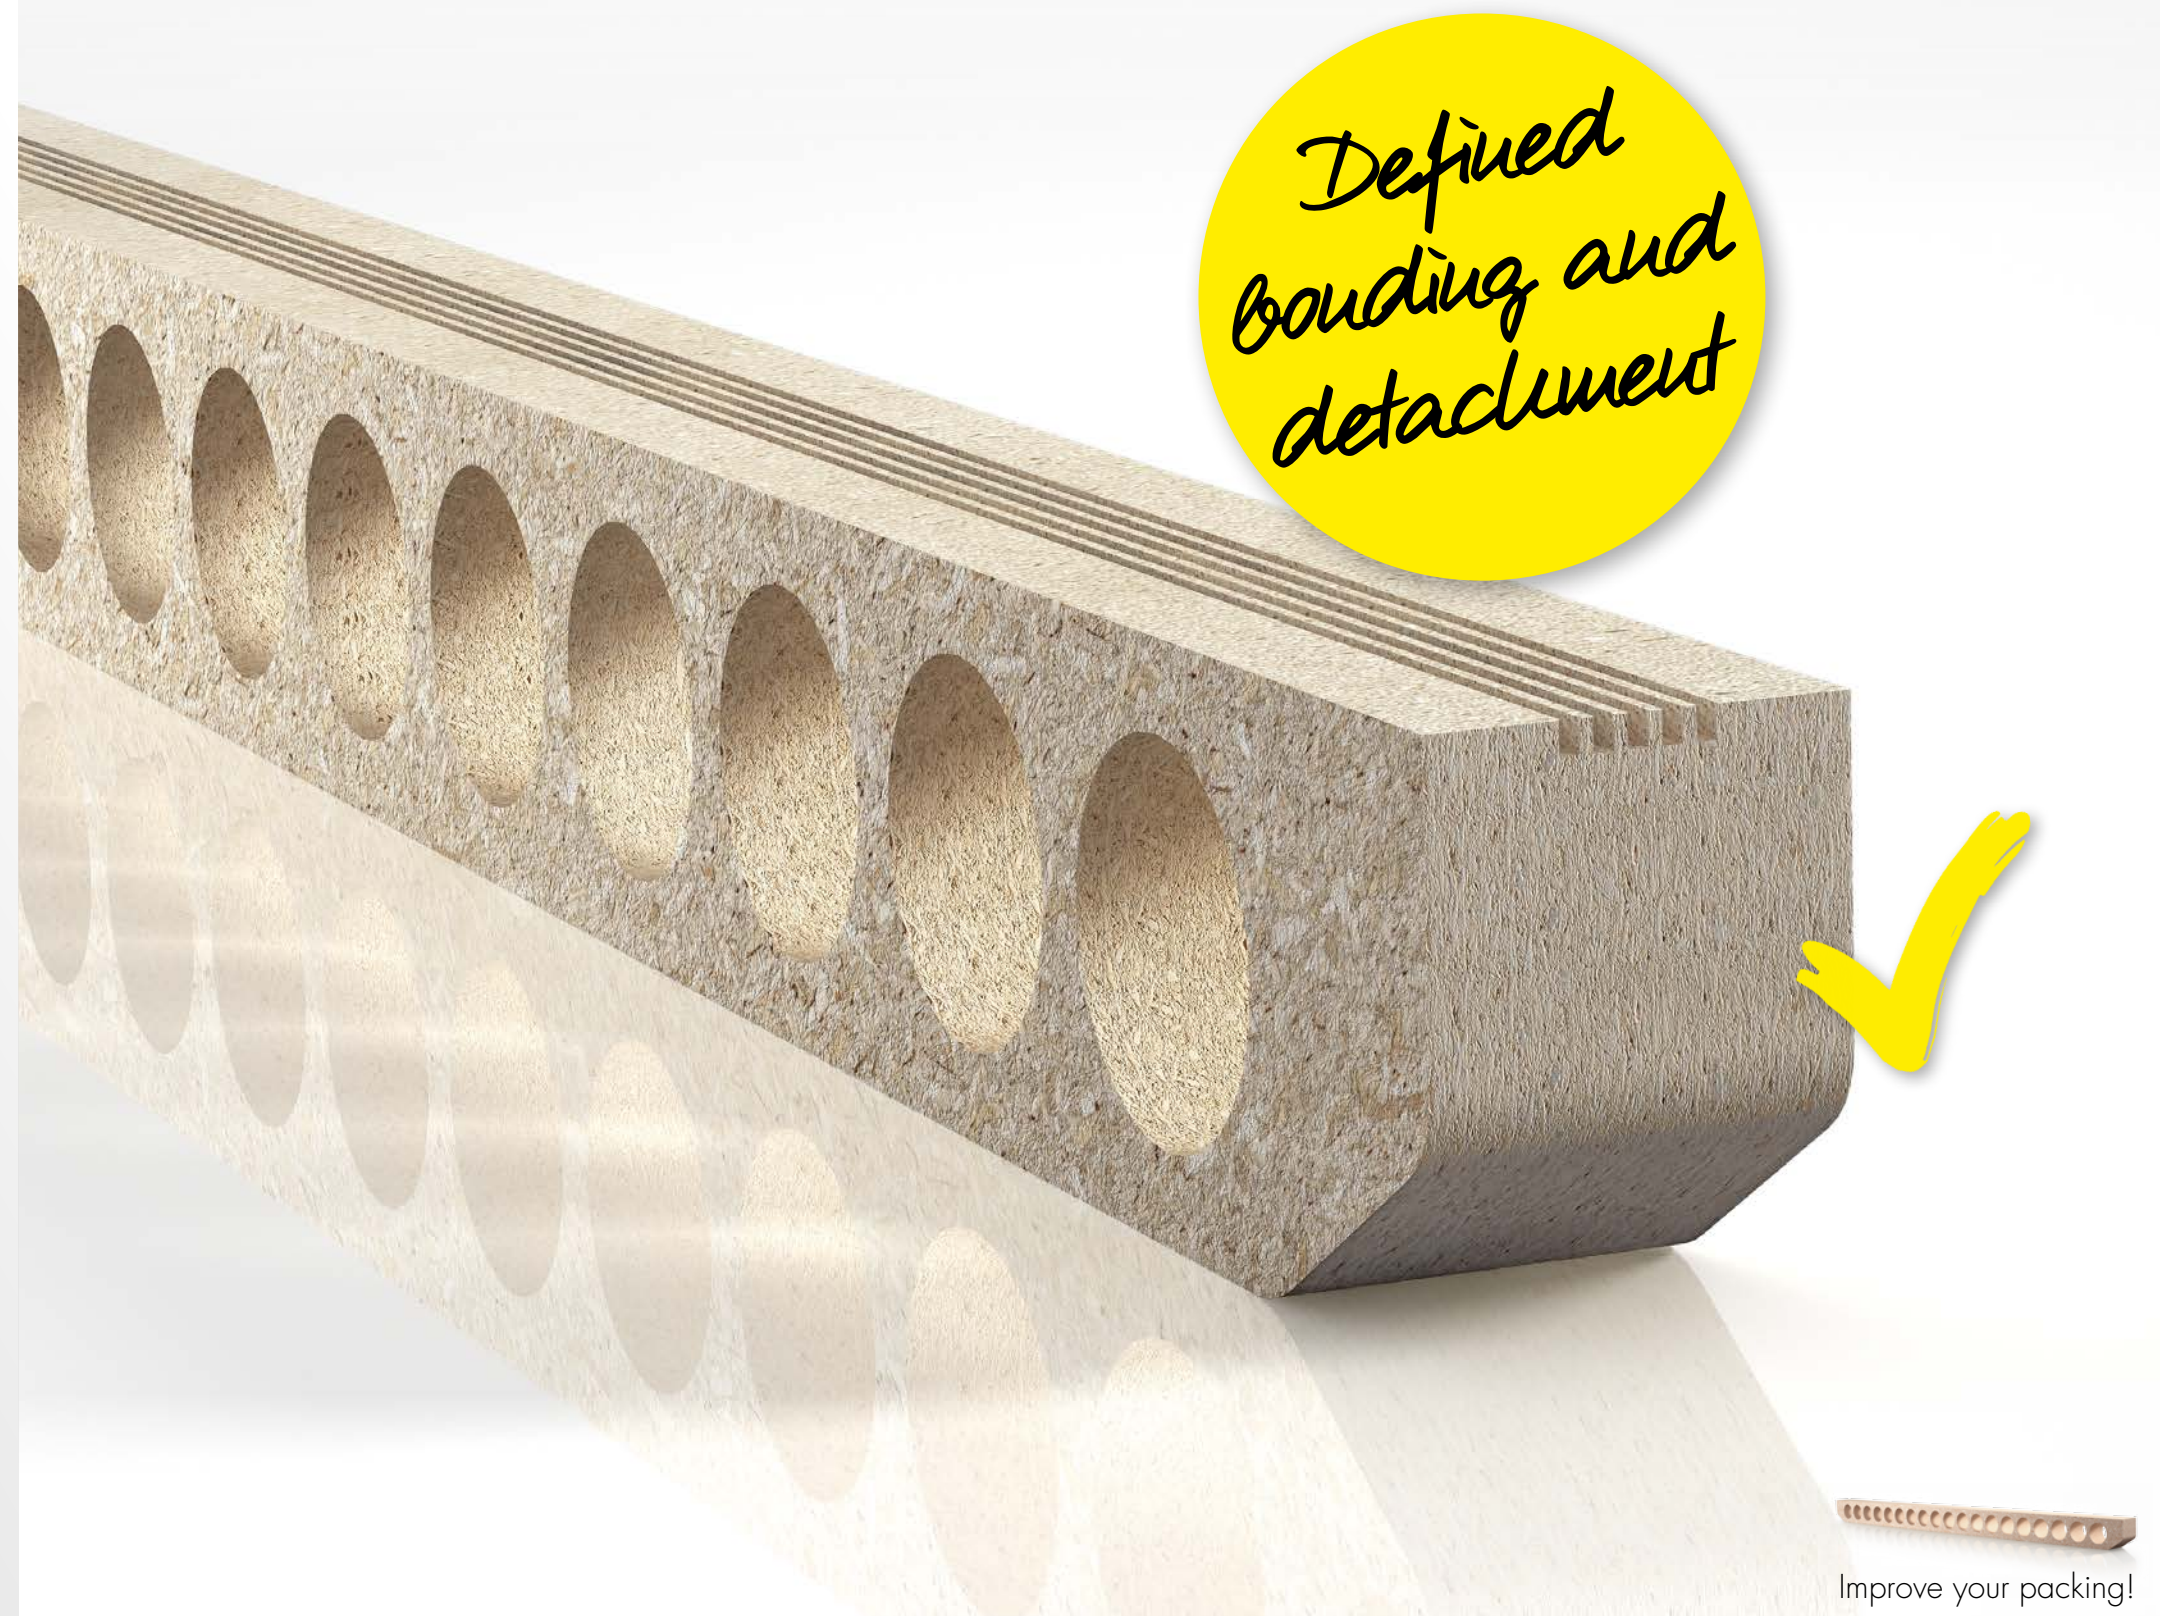

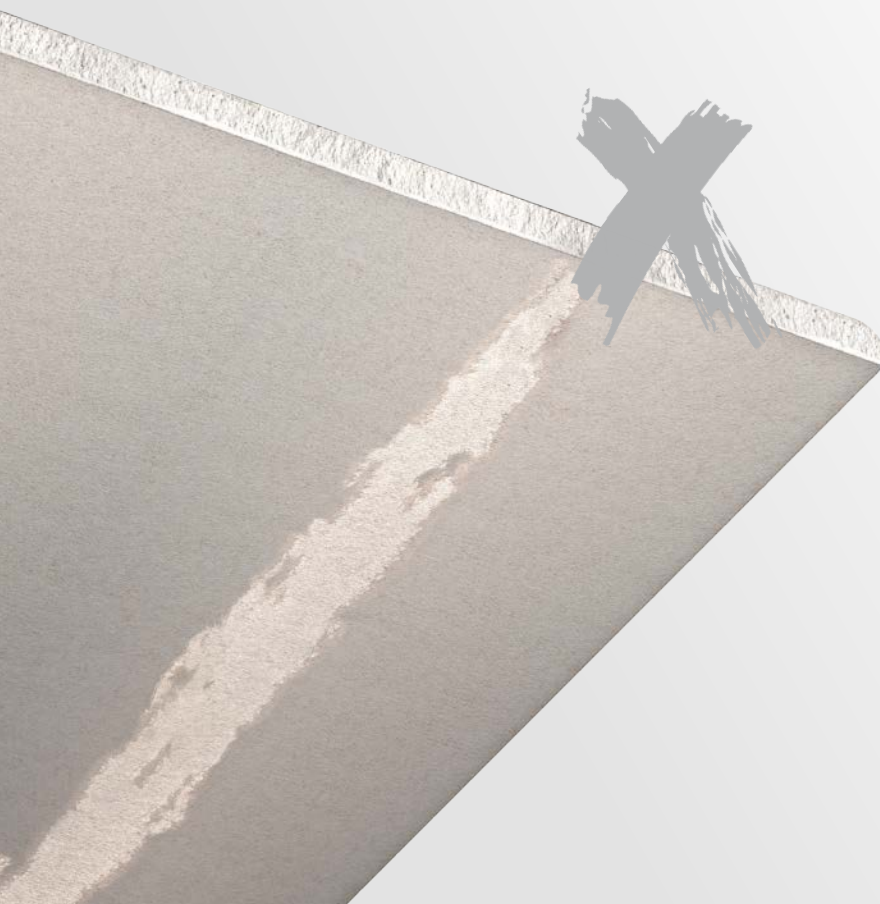

High density **Sauerland Bearers** with smooth edges guarantee a maximum protection of the packaging foil.

Improve your packing!

Easy Removal

The **Sauerland Easy Remove Bearer (ERB)** with slotted surface ensures a safe bonding by means of hot melt adhesive and allows an easy detachment without damaging the plasterboard.

Strong Arguments

1. High Stability

Enormous loading capacity of 14 tons/bearer

2. High Density

No contamination of production halls, stocks and building sites with wood chips

3. High Dimension Accuracy

Trouble-free feeding into packing machine guaranteed

4. Smooth Edges

No rupture of polythene packaging foil

5. Weight Reduction

Up to 60 % saving of weight

6. Certified Quality

Proven and attested by independent institutions

7. Natural Raw Material

Exclusive use of natural, untreated wood chips from German sawmills

8. Easy Waste Management

Trouble-free waste disposal (on the building site)

9. Competitive Price

Ideal cost-benefit ratio of Sauerland Bearers

10. Guaranteed Availability

High production output and large storage capacities for continuous and short-term availability

Company Basics

Since 1951, the company Sauerland Spanplatte produces boards applying the extrusion method. Currently 37 modern presses produce about 600.000 cubic metres of Sauerland Board.

Natural residual wood and chips from domestic sawmills are the basis for Sauerland Bearers.

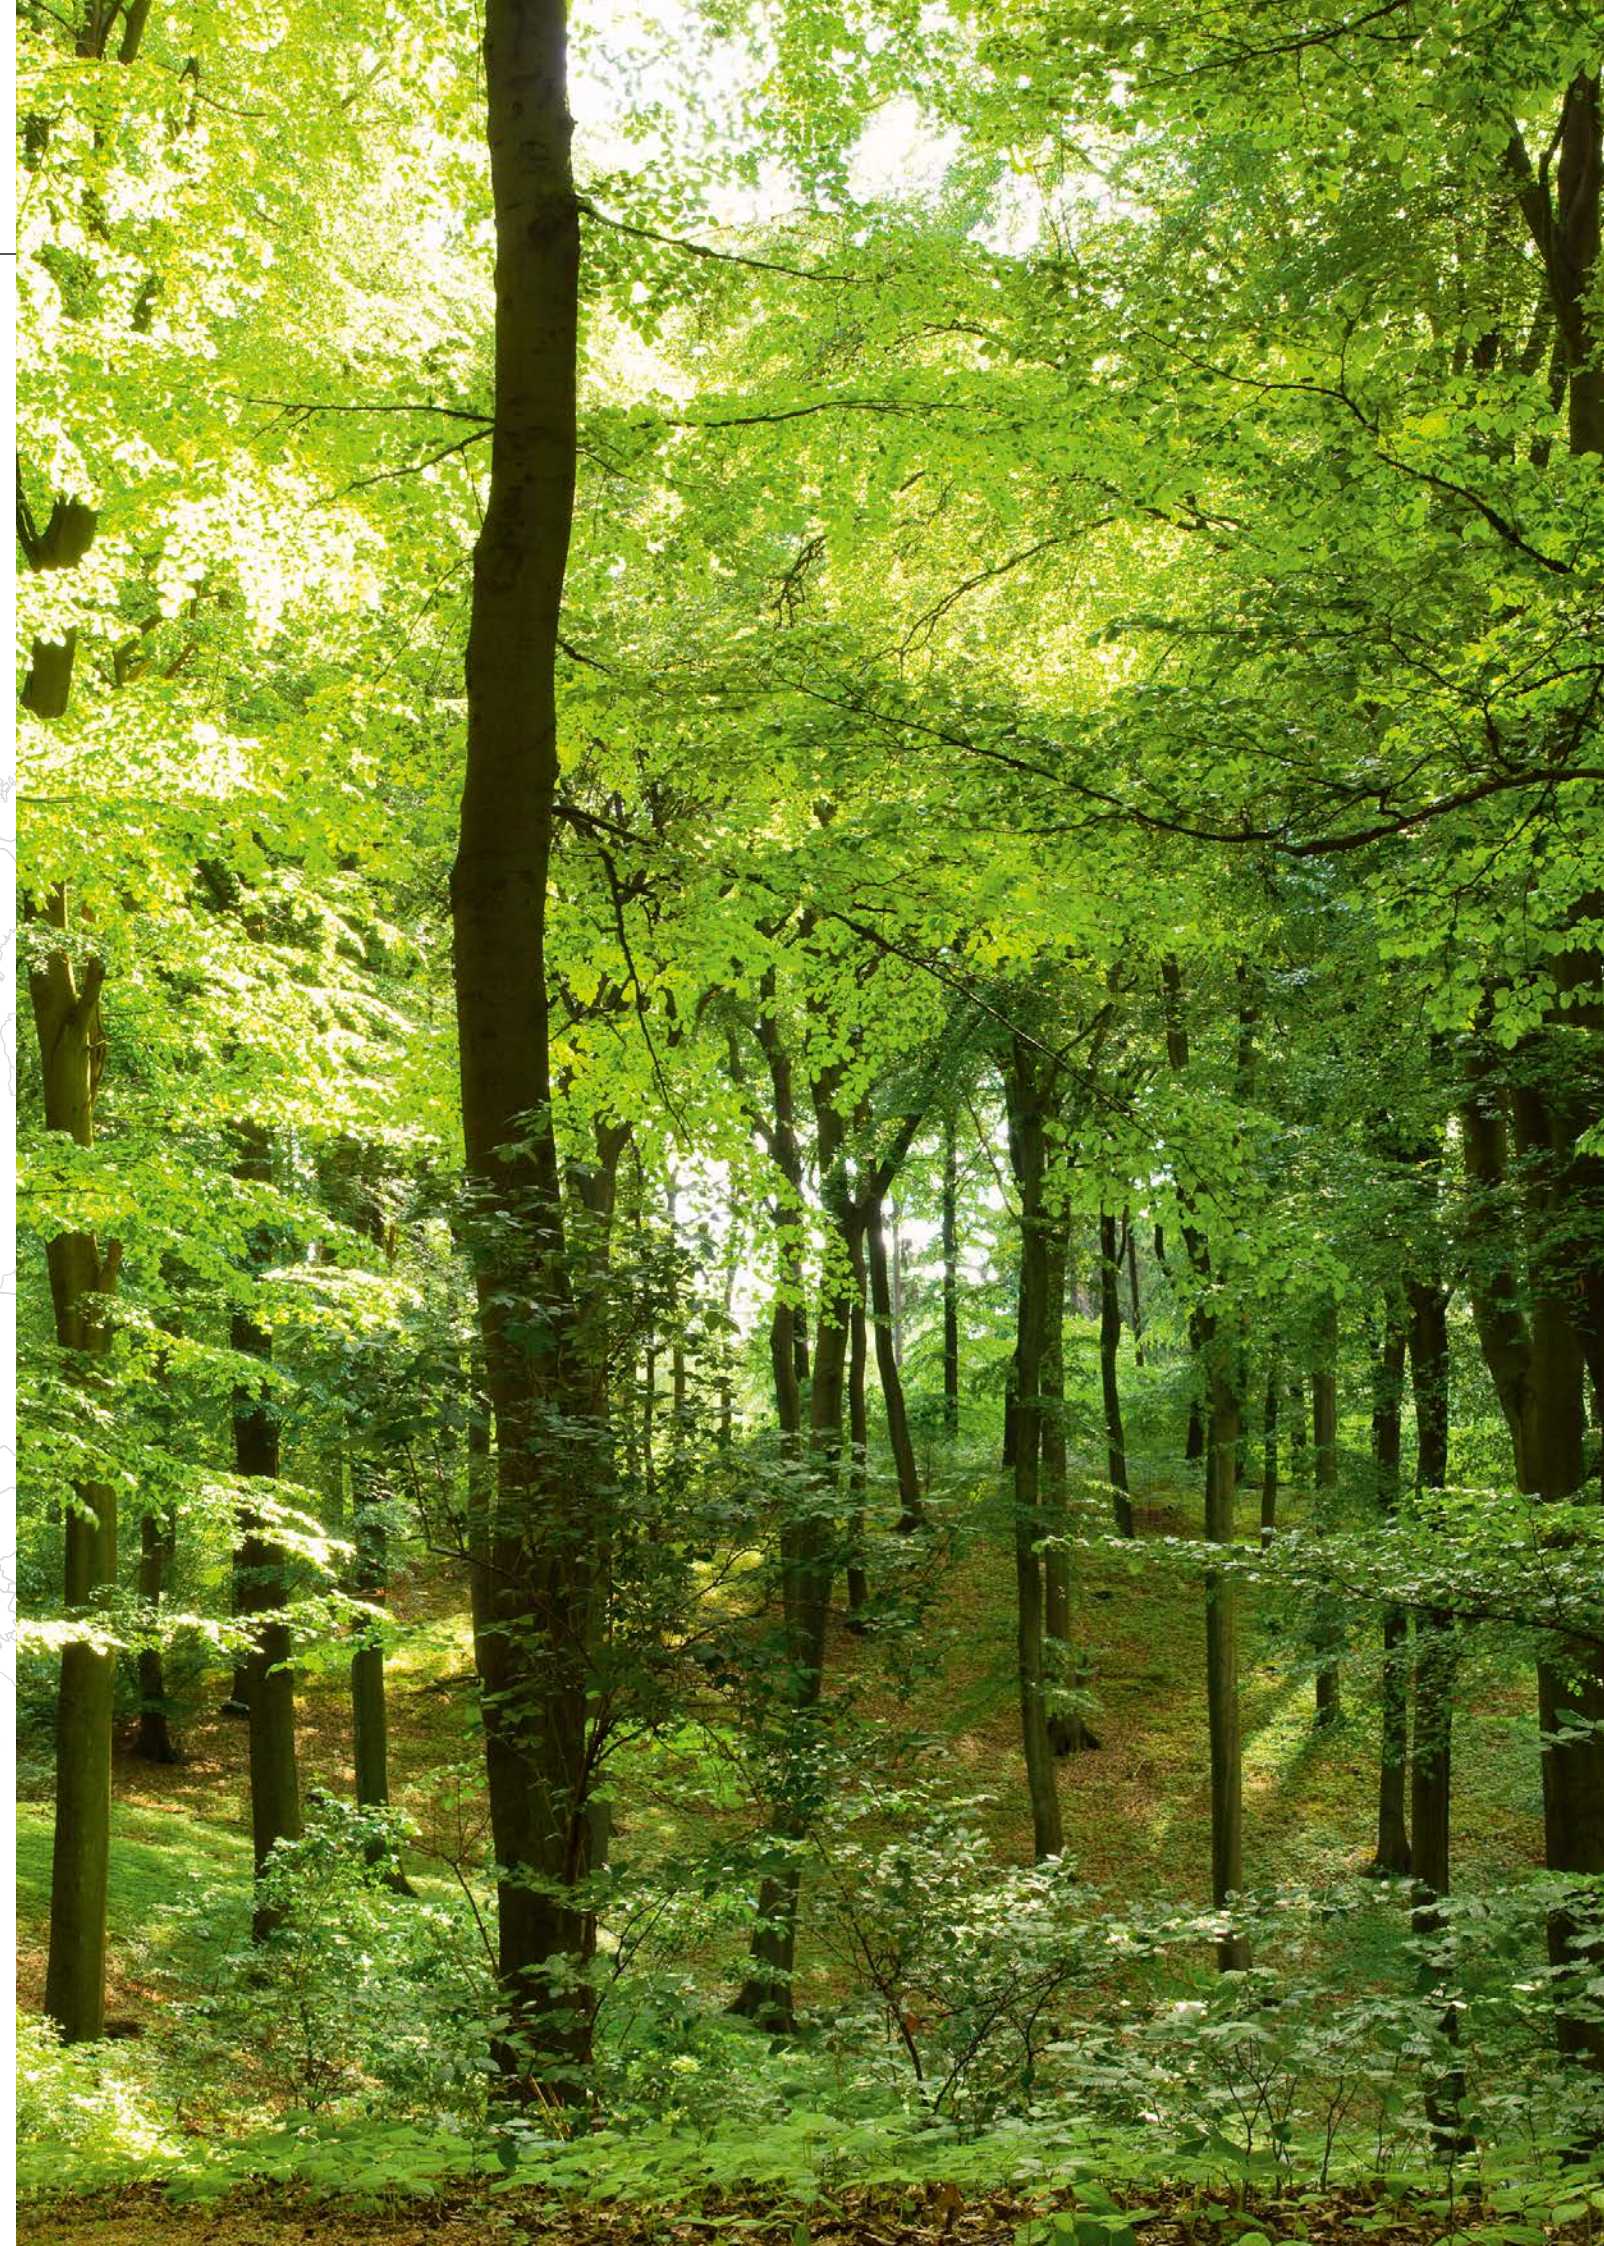

A qualified staff and a committed management team form the backbone of this family owned company, showing responsibility towards nature and environment.
